# How to score that bonus point in your In Hand test

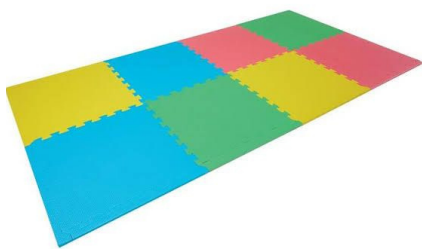

Here are some pointers and examples to get the  
creativity rolling.

These are only guidelines and your arena doesn't need to have the  
exact same pink flowers to earn the point.

If you are uncertain, e-mail us a photo and we will give it  
a thumbs up or down

Place fillers, flower pots, loose flowers, hay / straw bales or flags  
next to or on top of trotting poles, jump elements, lanes, weaving  
poles, drums, markers such as cones and even in the starting block

Make sure your mat is a bright color or  
patterned with different colors

Your mat may not be brown or grey or another dark, neutral color.  
This will not earn you the bonus point and will in fact lead to a  
problem as the test states that mats like these are not permitted
